Duxbury Clipper

## Librarians proved helpful

It has recently been my pleasure and privilege to meet with Denise, one of the Reference Librarians, at our own Duxbury Free Library. After struggling to input photos from my digital camera, I scheduled a one-on-one session with Denise for some computer training. This is a stress-free (almost) way

to learn. My specific requests were met with intelligence, patience and good humor. These one-on-one sessions in computer training (30 min.) are offered by the Reference Department. Our town is so blessed to have this library and its excellent staff.
